ID of the meeting: 867 1175 1415

Password of the meeting: PADEM

## AGENDA

1. Introduction on PADEM activities in Mongolia - 5min
2. Introduction on the project in partnership with Ecosoum NGO - 5min
3. Visit of the cooperative of construction – 10min
4. Movement to the construction site and first questions – 10min
5. Site visit (office building under construction) – 10min
6. Questions and answers - 20min or more

## PROJECT

Improve the resilience of Mongolian rural communities through the development of insulation and local sustainable construction

### Activities

- Development and construction of a production unit for compressed earth bricks (CEB) pilot in Khishig-Undur, training of teams of builders, production of CEB and replication in 3 other villages
- Design and construction of prototype constructions (housing, work building, livestock shelters) in Khishig-Undur and replication in 3 other villages
- Reinforcement of resilience against climate change for the populations of 4 villages: awareness raising on climate change issues, training and implementation of insulation works for households
- Capitalization, advocacy and dissemination of activities at provincial and national levels

### Beneficiaries

The project indirectly affects 12 000 people, the population of 4 villages, and more directly:

- 2 000 inhabitants benefit from the uses of prototype buildings
- 480 benefit from isolated housing
- 320 benefit from the economic benefits of the project
- 50 nomads benefit from shelter for their livestock.
